

# **GOES Processing**

The Global Online Enrollment System (GOES) is used to complete and submit Trusted Traveler (**Into Canada via land, air or sea; Into the United States across the land border from Mexico or Canada; Into the United States using kiosks in the International Airports; and, Into the Netherlands**) and Free and Secure Trade (**US/Mexico FAST and US/Canada FAST**) applications online, and to submit fee payments and schedule Enrollment Center appointments.

Canadian citizen/residents only apply for **Into Canada via land, air or sea**. However, if that application is approved, they are automatically enrolled in the **Into the United States using kiosks in the International Airports** and **Into the United States across the land border from Canada or Mexico** programs.

This presentation highlights the step-by-step process of:

- Registering as a new GOES user
- Completing and submitting Trusted Traveler applications
- Paying enrollment fees
- Scheduling Enrollment Center appointments
- Enrolling in additional Trusted Traveler programs

### Welcome to GOES - the Official U.S. Government Web Site

The Global Online Enrollment System allows registered users to enter their own applications for U.S. Customs and Border Protection (CBP) Trusted Traveler Programs, and approved members to edit their information as needed (mistakes on the original application cannot be corrected once the application is certified - your mistakes will need to be brought to the attention of CBP during your interview).

Once a completed application is certified by the applicant and the non-refundable payment is successfully processed, CBP will review it and determine whether or not to conditionally approve the application. If your application is conditionally approved, your GOES account will be updated to instruct you to schedule an appointment for an interview. Every individual who would like to apply for membership - children included and multiple applicants in one household - must create a separate account within GOES, submit a separate application, and schedule a separate interview appointment upon conditional approval.

**UNITED STATES PRIVACY ACT STATEMENT**

The authority to collect the information on this application, any supporting documentation, fingerprints, and other requested information is contained in Titles 8 and 19 of the U.S. Code and corresponding regulations. Furnishing the information on this form is voluntary; however, failure to provide all the requested information may be a basis for denying your application. All applicants are subject to a check of criminal information databases, immigration and customs databases, and other enforcement databases in order to determine eligibility for this program.

**Information for Applicants**

Those making an application to join the United States Global Entry program will be vetted in the United Kingdom and the United States to assess whether an applicant would be deemed eligible to become a member of program.

Applicants will not be eligible to participate in the scheme if they:

- are the subject of a criminal investigation
- are on a United Kingdom and/or United States list of wanted persons
- have been found to be in violation of United Kingdom and/or United States laws
- have been found guilty of or are being sought for committing a crime in any country
- have provided false or incomplete information on their application
- are the subject to National Security Entry Exit Registration System (NSEERS) or other special registration programs

This list is not exhaustive.

In some instances, minor offences such as parking fines and speeding tickets are not deemed to be sufficient grounds for exclusion from applying for the program.

Under United States law, all previous criminal convictions held should be declared by the applicant. This would include offences that would be considered spent under the United Kingdom Rehabilitation of Offenders Act 1974.

If, following the vetting process, a negative recommendation is issued, your application will be denied and you will not be eligible to participate in the Global Entry program.

It should be explicitly understood by each United Kingdom applicant that a rejection of your application to participate in United States Global Entry program may impact your future entry to the United States.

On submitting the application form, the US and UK Governments will undertake checks of criminal information databases, immigration and customs databases, and other enforcement databases in order to determine eligibility for this program.

US Customs and Border Protection will send personal information from your application to the United Kingdom for purposes of conducting a thorough risk assessment in order to determine eligibility for the program. As part of the assessment process, both the United Kingdom Border Agency and US Customs and Border Protection may share information on each applicant with other government departments and agencies in order to inform checks on each individual.

United Kingdom and United States will comply with applicable privacy laws at all times. Specifically, information submitted under the application will be retained by the United States in accordance with its privacy laws.

I certify that all information given on this application(s), and in support of this application(s), was provided voluntarily and is true and complete. I understand that any information on this application(s), including any supporting documentation, background information, finger and biometric data will be shared among law enforcement and other government agencies in accordance with applicable laws.

I certify that I have read, understood, and agree to abide by all conditions required for use of the program(s) I'm applying for, including all instructions and notices accompanying this application(s).

The Global Online Enrollment System allows registered users to enter their own applications for U.S. Customs and Border Protection (CBP) Trusted Traveler Programs, and approved members to edit their information as needed (mistakes on the original application cannot be corrected once the application is certified - your mistakes will need to be brought to the attention of CBP during your interview).

Once a completed application is certified by the applicant and the non-refundable payment is successfully processed, CBP will review it and determine whether or not to conditionally approve the application. If your application is conditionally approved, your GOES account will be updated to instruct you to schedule an appointment for an interview. Every individual who would like to apply for membership - children included and multiple applicants in one household - must create a separate account within GOES, submit a separate application, and schedule a separate interview appointment upon conditional approval.

### Welcome to GOES - the Official U.S. Government Web Site

The Global Online Enrollment System allows registered users to enter their own applications for U.S. Customs and Border Protection (CBP) Trusted Traveler Programs, and approved members to edit their information as needed (mistakes on the original application cannot be corrected once the application is certified - your mistakes will need to be brought to the attention of CBP during your interview).

Once a completed application is certified by the applicant and the non-refundable payment is successfully processed, CBP will review it and determine whether or not to conditionally approve the application. If your application is conditionally approved, your GOES account will be updated to instruct you to schedule an appointment for an interview. Every individual who would like to apply for membership - children included and multiple applicants in one household - must create a separate account within GOES, submit a separate application, and schedule a separate interview appointment upon conditional approval.
